Independent Auditors' Report

To the Honorable Mayor and Members
of the Township Committee
Township of Delaware, New Jersey

Report on the Financial Statements

We have audited the accompanying Comparative Balance Sheet - Regulatory Basis and the Comparative Statement of General Fixed Assets - Regulatory Basis of the various funds and account group of the Township of Delaware, in the County of Hunterdon, State of New Jersey (the Municipality) as of and for the years then ended December 31, 2020 and 2019, and the related Comparative Statement of Operations and Changes in Fund Balance for the years then ended, and the related Statement of Revenues - Regulatory Basis, Statement of Expenditures - Regulatory Basis for the fiscal year ended December 31, 2020 and the related Notes to the Financial Statements which collectively comprise the Municipality's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the Division). Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America, audit requirements prescribed by the Division, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Municipality's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Municipality's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of

significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

Basis for Adverse Opinions on Accounting Principles Generally Accepted in the United States of America

As described in Note 1, the financial statements are prepared by the Municipality on the basis of financial reporting provisions of the Division, which is a basis of accounting other than accounting principles generally accepted in the United States of America to meet the requirements of the Divisions. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on Accounting Principles Generally Accepted in the United States of America

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on Accounting Principles Generally Accepted in the United States of America* paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of the Municipality as of December 31, 2020 and 2019, or the results of its operations and changes in fund balance for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to previously present fairly, in all material respects, the Comparative Balance Sheet - Regulatory Basis and the Comparative Statement of General Fixed Assets - Regulatory Basis of the various funds and account group of the Municipality as of December 31, 2020 and 2019, and the results of operations and changes in fund balance for the years then ended and the related Statement of Revenues - Regulatory Basis, Statement of Expenditures - Regulatory Basis, except for the budgetary data and included, which was unaudited, for the year ended December 31, 2020 in conformity with accounting principles and practices prescribed by the Division, as described in Note 1.

Other Matters

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Municipality's basic financial statements. The Supplemental Schedules presented for the various funds, as listed in the Table of Contents, are presented for purposes of additional analysis as required by the Division and are not a required part of the basic financial statements. The accompanying Schedule of Expenditures of State Financial Assistance is presented for purposes of additional analysis as required by the Division through the State of New Jersey's OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants. State Grants and State Aid* and is also not a required part of the financial statements.

The supplemental statements and schedules presented for the various funds and the Schedule of Expenditures of State Financial Assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the various fund financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental statements and schedules described in the previous paragraph are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The additional schedules as listed in the Table of Contents have not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with Government Auditing Standards, we have also issued our report dated September 13, 2021 on our consideration of the Municipality's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Municipality's internal control over financial reporting and compliance.

NOTES TO THE FINANCIAL STATEMENTS

TOWNSHIP OF DELAWARE
Notes to the Financial Statements
For the Years Ended December 31, 2020 and 2019

Note 1 - Summary of significant accounting policies

Description of reporting entity

The Township of Delaware (the Municipality) is located in the County of Hunterdon, State of New Jersey, which was incorporated by an Act of the New Jersey Legislature on April 2, 1838. The Municipality is governed by a five-member committee, which includes a Mayor.

Component unit

Except as noted below, the Financial Statements - Regulatory Basis of the Municipality include every board, body, office or commission supported and maintained wholly or in part by funds appropriated by the Municipality, as required by N.J.S.A. 40A:5-5. Component units are legally separate organizations for which the Municipality is financially accountable. The Municipality is financially accountable for an organization if the Municipality appoints a voting majority of the organization's governing board and (1) the Municipality is able to significantly influence the programs or services performed or provided by the organization; or (2) the Municipality is legally entitled to or can otherwise access the organization's resources; the Municipality is legally obligated or has otherwise assumed the responsibility to finance the deficits of or provide financial support to the organization; or the Municipality is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the Municipality in that the Municipality approves the budget, the issuance of debt or the levying of taxes.

The financial statements of the component unit of the Municipality are not presented in accordance with Governmental Accounting Standards Board (GASB) Statement No. 14, as amended by GASB Statement No. 39, GASB Statement No. 61, and GASB Statement No. 80. The following Authority is considered a component unit of the Municipality.

Delaware Township Municipal Utilities Authority
P.O. Box 103
Sergeantsville, NJ 08557

The Authority's financial statements are presented in a separate audit report as required by N.J.A.C. 5:31-7.6.

Description of funds and account group

The accounting policies of the Municipality conform to the accounting principles applicable to municipalities, which have been prescribed by the New Jersey Division of Local Government Services, Department of Community Affairs (State of New Jersey). Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds. Under this method of accounting, the Municipality accounts for its financial transactions through the following separate funds and account groups:

TOWNSHIP OF DELAWARE
Notes to the Financial Statements
For the Years Ended December 31, 2020 and 2019

Note 1 - Summary of significant accounting policies (continued)

Description of funds and account group (continued)

Current Fund - resources and expenditures for governmental operations of a general nature, including Federal and State Grant Funds.

Trust Fund - receipts, custodianship, and disbursement of funds in accordance with the purpose for which each reserve was created.

General Capital Fund - receipts and disbursement of funds for the acquisition of general capital facilities, other than those acquired in the Current Fund.

Account Groups

General Fixed Assets Account Group - to account for all fixed assets of the Municipality. Neither infrastructure nor depreciation of assets of the Municipality is recorded in the group.

Basis of accounting

The accounting principles and practices prescribed for municipalities by the State of New Jersey differ in certain respects from accounting policies generally accepted in the United States of America (GAAP). The more significant differences, which may be material, are discussed further in Note 1.

A modified accrual basis of accounting is followed with minor exceptions.

Budget and budgetary procedures - The State of New Jersey has promulgated the form and procedures for the Municipality's cash basis budget in the Local Budget Law (N.J.S.A. 40A:4-1). The Municipality is only required to adopt budgets for the Current Fund and any Utility Fund, if applicable.

The Municipality must introduce and approve its annual budget no later than February 10th and adopt no later than March 20th of its budget year, unless extended by the Director of the Division of Local Government Services (the Director). All budgets shall be introduced, approved, amended and adopted by resolution passed by not less than a majority of the full membership of the governing body. The approved budget must be advertised, and a public hearing must be held prior to adoption. No budget or amendment thereof shall be adopted unless the Director has certified his approval thereof.

Emergency and special emergency appropriations may be made by resolution adopted by a 2/3 vote of the full membership of the governing body. All emergency appropriations must be raised in full in the succeeding year's budget, while special emergency appropriations financed from surplus funds shall be raised in installments of a least 20% annually until fully provided for.

Transfers between current year appropriations are allowed only during the last two months of the fiscal year. Transfers between prior year appropriation reserves are allowed only during the first three months of the fiscal year.

TOWNSHIP OF DELAWARE
Notes to the Financial Statements
For the Years Ended December 31, 2020 and 2019

Note 1 - Summary of significant accounting policies (continued)
Basis of accounting (continued)

Revenues - are recorded when received in cash except for certain amounts, which are due from other Governmental Units. Receipts from Federal and State grants are realized as revenue when anticipated in the Municipal budget. Receivables for property taxes are recorded with offsetting reserves on the balance sheet of the Municipality's Current Fund; accordingly, such amounts are not recorded as revenue until collected. Other amounts that are due the Municipality which are susceptible to accrual are also recorded as receivables with offsetting reserves and recorded as revenue when received.

Expenditures - are recorded on the budgetary basis of accounting. Generally, expenditures are recorded when an amount is encumbered for goods or services through the issuances of a purchase order in conjunction with the Encumbrance Accounting System. Outstanding encumbrances at year-end are reported as a cash liability in the financial statements and constitute part of the Municipality's statutory appropriation reserve balance.

Appropriation Reserves - covering unexpended appropriation balances are automatically created at December 31 of each year and recorded as liabilities, except for amounts, which may be canceled by the governing body. Appropriation reserves are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred during the preceding fiscal year. Lapsed appropriation reserves are recorded as income. Appropriations for principal payments on outstanding general capital and utility bonds and notes are provided on the cash basis; interest on general capital indebtedness is on the cash basis, whereas interest on utility indebtedness is on the accrual basis.

Property Acquired for Taxes/Foreclosed Property - is recorded in the Current Fund at the assessed valuation when such property was acquired and is fully reserved. Ordinarily it is the intention of the Municipality to resell foreclosed property in order to recover all or a portion of the delinquent taxes or assessments and to return the property to a taxpaying basis. For this reason, the value of the foreclosed property has not been included in the general fixed assets account group. If such property is converted to a municipal use, it will be recorded in the general fixed assets account group.

Tax Title Liens - are taxes which have been put up for sale but not been purchased. The Municipality then accepts the lien which will earn 18% per annum until the lien is paid off by the property owner. The Municipality may choose to foreclose and return the property to the tax rolls.

Interfunds - Interfund receivables and payables that arise from transactions between funds are recorded by all funds affected by such transactions in the period in which the transaction is executed. Interfund receivables in the Current Fund are recorded with offsetting reserves which are created by charges to operations. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves.

TOWNSHIP OF DELAWARE
Notes to the Financial Statements
For the Years Ended December 31, 2020 and 2019

Note 1 - Summary of significant accounting policies (continued)

Basis of accounting (continued)

Inventories of Supplies - the costs of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The costs of inventories are not included on the various balance sheets.

Deferred Charges to Future Taxation - Funded and Unfunded (Capital Fund) - upon authorization of capital projects, the Municipality establishes deferred charges for the costs of the projects that are to be raised by future taxation. Deferred charges relating to permanent debt issued are shown as funded. Other deferred charges are shown as unfunded.

General Fixed Assets - in accordance with New Jersey Administrative Code Section 5:30-5.6, Accounting for Governmental Fixed Assets, as promulgated by the State of New Jersey, which differs in certain respects from generally accepted accounting principles, all local units are required to have and maintain a fixed assets accounting and reporting system. In accordance with this administrative code requirement, fixed assets acquired after December 31, 1985 shall be valued on the basis of actual cost; prior to that time, they may be valued at cost or estimated historical cost. The Municipality defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of 5 years.

Fixed assets used in governmental operations (general fixed assets) are accounted for in the General Fixed Assets Account Group. Public domain (infrastructure) general fixed assets consisting of certain improvements other than buildings, such as roads, bridges, curbs and gutters, streets and sidewalks and drainage systems are not capitalized. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

No depreciation has been provided for in the financial statements.

Fixed assets acquired through grants in aid or contributed capital have not been accounted for separately.

Compensated absences - are granted to employees for varying amounts of sick and vacation leave in accordance with the Municipality's personnel policy and bargaining agreements, which permits employees to accumulate unused leave and carry forward the amount to subsequent years. Upon retirement, employees shall be paid by the Municipality for the unused leave.

The liability for compensated absences has not been accrued. Expenditures are recognized as the payments are made.

Departures from generally accepted accounting principles

As noted, the accounting principles and practices used differ in some respects from generally accepted accounting principles (GAAP) for local governmental units. The more significant differences, which may be material, are as follows:

TOWNSHIP OF DELAWARE
Notes to the Financial Statements
For the Years Ended December 31, 2020 and 2019

Note 1 - Summary of significant accounting policies (continued)

Departures from generally accepted accounting principles (continued)

1. Revenues - GAAP records taxes, utility charges and other revenues as income when levied and there is no reserve for receivables for unpaid balances.
2. Expenditures - GAAP records expenditures when incurred and does not reflect appropriation reserve balances or deferred charges to future taxation.
3. Foreclosed property - GAAP records the value of foreclosed property at the lower of cost or fair market value and would be recorded in the general fixed asset account group.
4. Interfunds - GAAP does not require offsetting reserves for Interfund receivables and resulting revenue recognition when Interfunds are liquidated.
5. Inventories - GAAP requires inventories to be reported on the balance sheet at year-end.
6. Grant Accounting - GAAP requires that grants be recorded within a special revenue fund and revenues are not to be realized until earned.
7. Capital Funds - GAAP requires separate funds for recording capital projects and payment of debt service. New Jersey requires records these transactions within one fund.
8. Compensated absence liabilities for sick and vacation pay and for contributions to state administered pension plans are not recorded until paid.
9. Losses arising from tax appeals and other contingencies are not recorded until paid.
10. Financial Reporting Model - These statements are not presented on the requirements as promulgated by the following GASB Statements which made a dramatic change to the financial reporting requirements of State and Local governments as it relates to reporting for GAAP purposes:

GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*.

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* - Information regarding pension activity is disclosed rather than reported.

GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* - Information regarding postemployment benefits other than pensions are disclosed rather than reported.

GASB Statement No. 84, *Fiduciary Activities* - This statement made dramatic changes to the financial reporting requirements relating to trust funds.

GASB Statement No. 87, *Leases* - Information regarding leases are disclosed rather than reported.

It is not practicable to determine the effect of these differences on the financial statements.

Note 2 - Deposits and investments

Cash and cash equivalents include petty cash, change funds and cash on deposit with public depositories. The Municipality does not have any investments.

New Jersey Municipal Units are required by N.J.S.A. 40A:5-14 to deposit public funds in a bank or trust company having its place of business in the State of New Jersey and organized under the laws of the United States or of the State of New Jersey or in the New Jersey Cash Management Fund. N.J.S.A. 40A:5-15.1 provides a list of investments which may be purchased by New Jersey Municipal Units. In addition, other state statutes permit investments in obligations issued by local authorities and other state agencies. The State of New Jersey does not place any limit on the amount that the Municipality may invest with any one issuer.

The Cash Management Plan adopted by the Municipality requires it to deposit funds in public depositories protected from loss under provisions of the act.

Custodial credit risk - deposits

Custodial credit risk is the risk that, in the event of a bank failure, the Municipality's deposits might not be recovered. The Municipality does not have a policy for custodial credit risk. New Jersey statutes require that cash be deposited only in New Jersey based banking institutions that participate in the New Jersey Governmental Depository Protection Act (GUDPA) or in qualified investments established in New Jersey Statutes 40A:5-15.1(a) that are treated as cash equivalents. Under the act, all demand deposits are covered by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the Municipality in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds such as salary withholdings, bail funds or funds that may pass to the Municipality relative to the happening of a future condition.

As of December 31, 2020 and 2019, the Municipality's bank balances of \$9,052,857 and \$7,843,256, respectively, were exposed to custodial credit risk as follows:

	2020	2019
Insured by the FDIC	\$ 337,790	\$ 340,504
Uninsured and collateralized with securities held by pledging financial institutions	8,715,057	7,502,752
Total	<u>\$ 9,052,847</u>	<u>\$ 7,843,256</u>

Note 3 - Tax assessments and property taxes

Property valuations (assessments) are determined on true values as arrived at by a cost approach, market data approach and capitalization of net income where appropriate. Current assessments are the results of new assessments on a like basis with established comparable properties for newly assessed or purchased properties. This method assures equitable treatment to like property owners.

Note 3 - Tax assessments and property taxes (continued)

Upon the filing of certified adopted budgets by the Municipality, the Municipality's Local School, and the County, the tax rate is determined by the County Board of Taxation based on the certified amounts in each of the taxing municipalities for collection to fund the budgets. The statutory provision for the assessment of property, levying of taxes and the collection thereof are set forth in N.J.S.A. 54:4 et seq. Special taxing municipalities are permitted in New Jersey for various special services rendered to the properties located within the special municipalities.

Tax bills are mailed annually in June. The taxes are due August 1 and November 1, respectively, and are adjusted to reflect the current fiscal year's total tax liability. The preliminary taxes due February 1 and May 1 of the succeeding fiscal year are based upon one-half of the current year's total tax.

Tax installments not paid on or before the due date are subject to interest penalties of eight percent per annum on the first \$1,500 of the delinquency and eighteen percent per annum on any amount in excess of \$1,500. Pursuant to Chapter 75, PL 1991, the governing body may also fix a penalty to be charged to a taxpayer with a delinquency in excess of \$10,000 who fails to pay that delinquency prior to the end of the calendar year. The penalty so fixed shall not exceed six percent of the amount of the delinquency. These interest and penalties are the highest permitted under the New Jersey statutes. Delinquent taxes are annually included in a tax sale in accordance with New Jersey statutes.

Note 4 - Long-term debt

The Local Bond Law of the State of New Jersey governs the authorization of debt by municipalities to finance certain general municipal and utility capital expenditures. Among its provisions are requirements that bonds must mature within the statutory period of usefulness of the projects bonded. Bond anticipation notes may also be issued to temporarily finance capital projects for periods not greater than one year and may be reissued in yearly installments not to exceed ten years. All bonds and notes issued by the Municipality are general full faith and credit obligations.

Summary of statutory debt condition - annual debt statement

The summarized statement of debt condition, which follows, is prepared in accordance with the required method of setting up the Annual Debt Statement and indicates a statutory net debt of 0.97%.

	Gross Debt	Deductions	Net Debt

- (1) The Public Employees' Retirement System
- (2) Defined Contribution Retirement Program
- (3) The Police and Firemen's Retirement System

Due to the basis of accounting described in Note 1, no liability has been recorded in the financial statements for the Municipal's share of net pension liability for the Public Employees' Retirement System.

Public employees' retirement system

Plan description

The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PERS, please refer to the Division's Comprehensive Annual Financial Report (CAFR) which can be found at <https://www.state.nj.us/treasury/pensions/annual-reports.shtml>.

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All pension benefits vest after ten years of service.

Plan description (continued)

The following represents the membership tiers for PERS:

Tier	Definition
1	Members enrolled prior to July 1, 2007
2	Members eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to Tiers 1 and 2 members upon reaching age 60 and to Tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to Tier 4 members upon reaching age 62 and Tier 5 members upon reaching age 65. Early retirement benefits are available to Tiers 1 and 2 members before reaching age 60, Tiers 3 and 4 before age 62 with 25 or more years of service credit and Tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective Tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective Tier.

Allocation methodology

To facilitate the separate (sub) actuarial valuations, the Division maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The allocation percentages for each group as of June 30, 2020, are based on the ratio of each employer's contributions to total employer contributions of the group for the State fiscal year ended June 30, 2020.

Contributions

The contribution policy for PERS is set by N.J.S.A 43:15A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for non-contributory group insurance benefits is based on actual claims paid. For State Fiscal Year 2020, the State's pension contribution was less than the actuarial determined amount.

Note 8 - Pensions (continued)
Public employee's retirement system (continued)
Contributions (continued)

The local employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. Chapter 19, PL 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State Fiscal Year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The Actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

The contribution rate was 7.50% of base salary effective July 1, 2018.

The Municipality's contractually required contribution rate for the year ended December 31, 2020 and 2019 was 15.50% and 13.10%, respectively, of the Municipality's covered payroll. This amount was actuarially determined as the amount that, when combined with employee contributions is expected to finance the costs of benefits earned by employees during the year, including an additional amount to finance any unfunded accrued liability.

The Municipality contributed \$115,021 and \$99,655 respectively for the year ending December 31, 2020 and 2019.

Collective net pension liability and actuarial information

The Municipality's proportionate share of the net pension liability for PERS as of December 31, 2020 and 2019 are as follows:

Actuarial Assumptions

The collective total pension liability for the June 30, 2020 measurement date was determined by an actuarial valuation as of July 1, 2019, which was rolled forward to June 30, 2020. This actuarial valuation used the following actuarial assumptions:

Inflation rate

Price	2.75%
Wage	3.25%

Salary increases (based on years of service)

Through 2026	2.00% - 6.00%
Thereafter	3.00% - 7.00%

Investment rate of return	7.00%
---------------------------	-------

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2020.

The actuarial assumptions used in the July 1, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Long-term expected rate of return

In accordance with state statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2020) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the Board of Trustees, and the Actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2020 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. equity	27.00%	7.71%
Non-U.S. developed markets equity	13.50%	8.57%
Emerging markets equity	5.50%	10.23%
Private equity	13.00%	11.42%
Real assets	3.00%	9.73%
Real estate	8.00%	9.56%
High yield	2.00%	5.95%
Private credit	8.00%	7.59%
Investment grade credit	8.00%	2.67%
Cash equivalents	4.00%	0.50%
U.S. Treasuries	5.00%	1.94%
Risk management strategies	3.00%	3.40%

Discount rate

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

Defined contribution retirement program

The Defined Contribution Retirement Program (DCRP) is a cost-sharing multiple-employer defined contribution pension fund which was established in 2007 under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (N.J.S.A. 43:15:c-1 et seq.) and expanded under the provisions of Chapter 89, P.L. 2008 and Chapter 1, P.L. 2010. The DCRP provides retirement benefits for eligible employees and their beneficiaries. Individuals covered under DCRP are employees enrolled in PERS on or after July 1, 2007, who earn salary in excess of established maximum compensation limits; employees enrolled in PFRS after May 21, 2010, who earn salary in excess of established maximum compensation limits; employees otherwise eligible to enroll in PERS on or after November 2, 2008, who do not earn the minimum annual salary for Tier 3 enrollment but who earn salary of at least \$5,000 annually; and employees otherwise eligible to enroll in PERS after May 21, 2010, who do not work the minimum number of hours per week required for Tiers 4 or 5 enrollment, but who earn salary of at least \$5,000 annually. For the year ended December 31, 2020 and 2019, the Municipality contributed \$1,948 and \$2,720 respectively. The program administrator, Prudential Financial, makes information regarding the program available on its New Jersey Defined Contribution Program website: www.prudential.com/njdcrp.

Vesting and benefit provisions

All members who become eligible for DCRP are immediately vested. Benefits include a defined contribution retirement plan distribution that can be received in a lump sum or in portions upon retirement, life insurance coverage, and long-term disability coverage.

Police and Fireman's retirement system

Plan description

The State of New Jersey, Police and Firemen's Retirement System (PFRS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PFRS, please refer to Division's Comprehensive Annual Financial Report (CAFR), which can be found at <https://www.state.nj.us/treasury/pensions/annual-reports.shtml>.

The vesting and benefit provisions are set by N.J.S.A. 43:16A. PFRS provides retirement as well as death and disability benefits. All pension benefits vest after ten years of service, except disability benefits, which vest after four years of service.

The following represents the Membership Tiers for PFRS:

Tier	Definition
1	Members who were enrolled prior to May 22, 2010
2	Members eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
3	Members eligible to enroll on or after June 28, 2011

Plan description (continued)

Service retirement benefits are available at age 55 and are generally determined to be 2% of final compensation for each year of creditable service up to 30 years plus 1% for each year of service in excess of 30 years. Members may seek special retirement after achieving 25 years of creditable service, in which benefits would equal 65% (tiers 1 and 2 members) and 60% (tier 3 members) of final compensation plus 1% for each year of creditable service over 25 years, but not to exceed 30 years. Members may elect deferred retirement benefits after achieving ten years of service, in which case benefits would begin at age 55 equal to 2% of final compensation for each year of service.

Contributions

The contribution policy for PFRS is set by N.J.S.A. 43:16A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's contribution is based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. For fiscal year 2020, the State's pension contribution was less than the actuarial determined amount.

The local employers' contribution amounts are based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. Chapter 19, PL 2009 provided an option for local employers of PFRS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State Fiscal Year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability.

The Actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

The contribution policy for PFRS is set by New Jersey state statutes and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. Employee contributions are a percentage of annual compensation, as defined, and are 10.00% of employees' annual contractual compensation.

The Township's contractually required contribution rate for the year ended December 31, 2020 and 2019 was 32.38% and 28.64%, respectively, of the Township's covered payroll. This amount was actuarially determined as the amount that, when combined with employee contributions is expected to finance the costs of benefits earned by employees during the year, including an additional amount to finance any unfunded accrued liability.

The Municipality contributions were \$205,705 and \$181,913 for the year ending December 31, 2020 and 2019.

Special funding situation

Under N.J.S.A. 43:16A-15, local participating employers are responsible for their own contributions based on actuarially determined amounts, except where legislation was passed that legally obligated the State if certain circumstances occurred. The legislation, which legally obligates the State, is as follows: Chapter 8, P.L. 2000, Chapter 318, P.L. 2001, Chapter 86, P.L. 2001, Chapter 511, P.L. 1991, Chapter 109, P.L. 1979, Chapter 247, P.L. 1993 and Chapter 201, P.L. 2001. The amounts contributed on behalf of the local participating employers under this legislation is considered to be a special funding situation as defined by GASB Statement No. 68 and the State is treated as a non-employer contributing entity. Since the local participating employers do not contribute under this legislation directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers related to this legislation. However, the notes to the financial statements of the local participating employers must disclose the portion of the non-employer contributing entities' total proportionate share of the collective net pension liability that is associated with the local participating employer. In addition, each local participating employer must recognize pension expense associated with the employer as well as revenue in an amount equal to the non-employer contributing entities' total proportionate share of the collective pension expense associated with the local participating employer.

During the fiscal year ended June 30, 2020, the State of New Jersey contributed \$28,413 to the PFRS for normal pension benefits on behalf of the Municipality, which is less than the contractually required contributions of \$41,846.

Collective net pension liability and actuarial information

The Municipality's proportionate share of the net pension liability for PFRS as of December 31, 2020 and 2019 are as follows:

Actuarial assumptions

The collective total pension liability for the June 30, 2020 measurement date was determined by an actuarial valuation as of July 1, 2019, which was rolled forward to June 30, 2020. This actuarial valuation used the following actuarial assumptions:

Inflation rate

Price	2.75%
Wage	3.25%

Salary increases (based on years of service)

Through all future years	3.25% - 15.25%
--------------------------	----------------

Investment rate of return

7.00%

Pre-retirement mortality rates were based on the Pub-2010 Safety Employee mortality table with a 105.6% adjustment for males and 102.5% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. For healthy annuitants, post-retirement mortality rates were based on the Pub-2010 Safety Retiree Below-Median Income Weighted mortality table with a 96.7% adjustment for males and 96.0% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. For beneficiaries, the Pub-2010 General Retiree Below-Median Income Weighted mortality table was used, unadjusted, and with future improvement from the base year of 2010 on a generational basis. Disability rates were based on the Pub-2010 Safety Disabled Retiree mortality table with a 152.0% adjustment for males and 109.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2020.

The actuarial assumptions used in the July 1, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2013 to June 30, 2018.

Long-term expected rate of return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2020) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PFRS's target asset allocation as of June 30, 2020 are summarized in the following table:

Discount rate

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the non-employer contributing entity will be based on 78% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

Note 9 - Postretirement benefits

Plan description - The Municipality contributes to the State Health Benefits Program (SHBP), a cost-sharing multiple-employer defined benefit other postemployment benefit (OPEB) plan administered by the State of New Jersey Division of Pensions and Benefits. It covers employees of local government employers that have adopted a resolution to participate in the Plan. The plan meets the definition of an equivalent arrangement as defined in paragraph 4 of GASB Statement No. 75, Accounting and Financial Reporting for the Postemployment Benefits Other Than Pensions (GASB Statement No. 75); therefore, assets are accumulated to pay associated benefits. For additional information, please refer to the Division) Comprehensive Annual Financial Report (CAFR), which can be found at <https://www.state.nj.us/treasury/pensions/financial-reports.shtml>.

The SHBP provides medical and prescription drug to retirees and their covered dependents of the employers. Under the provisions of Chapter 88, P.L. 1974 and Chapter 48, P.L. 1999, local government employers electing to provide postretirement medical coverage to their employees must file a resolution with the Division. Under Chapter 88, local employers elect to provide benefit coverage based on the eligibility rules and regulations promulgated by the State Health Benefits Commission. Chapter 48 allows local employers to establish their own age and service eligibility for employer paid health benefits coverage for retired employees. Under Chapter 48, the employer may assume the cost of postretirement medical coverage for employees and their dependents who: 1) retired on a disability pension; or 2) retired with 25 or more years of service credit in a locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 3) retired and reached the age of 65 with 25 or more years of service credit in a locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 4) retired and reached age 62 with at least 15 years of service with the employer. Further, the law provides that the employer paid obligations for retiree coverage may be determined by means of a collective negotiation agreement.

The Municipality has adopted a resolution to participate in the SHBP.

Funding Policy - Participating employers are contractually required to contribute based on the amount of premiums attributable to their retirees. Postretirement medical benefits under the plan have been funded on a pay-as-you-go basis since 1994. Prior to 1994, medical benefits were funded on an actuarial basis.

Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

TOWNSHIP OF DELAWARE
Notes to the Financial Statements
For the Years Ended December 31, 2020 and 2019

Note 9 - Postretirement benefits (continued)

Contributions to pay for the health premiums of participating retirees in the SHBP are billed to the Municipality monthly. Premiums are funded entirely by the Municipality and are based on the type of coverage selected by the employee.

The Municipality's contributions to the SHBP for postretirement benefits for the years ended December 31, 2019 and 2018 were \$127,886 and \$127,886, respectively, which equaled the required benefit contribution for each year. In addition, certain retirees were reimbursed for personally paid health benefits for the years ended December 31, 2019 and 2018 were \$12,030 and \$9,040, respectively.

Allocation methodology

GASB Statement No 75 requires participating employers in the Plan to recognize their proportionate share of the collective net OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective OPEB expense. The special funding situation's and nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense are based on separately calculated total OPEB liabilities. The nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense are further allocated to employers based on the ratio of the plan members of an individual employer to the total members of the Plan's nonspecial funding situation during the measurement period July 1, 2018 through June 30, 2019. Employer and non-employer allocation percentages have been rounded for presentation purposes; therefore, amounts presented in the schedule of OPEB amounts by employer and non-employer may result in immaterial differences.

Components of net OPEB liability

The Municipality's proportionate share of the net OPEB liability of the participating employers in the SHBP as of December 31, 2019 and 2018 were as follows:

	2019	2018
Net OPEB liability	\$ 3,270,563	\$ 4,084,444
Proportionate share	0.024144%	0.026071%
Plan fiduciary net position as a percentage of the total OPEB liability	1.98%	1.97%

The net OPEB liability as of December 31, 2019 was determined by an actuarial valuation as of June 30, 2018, which was rolled forward to June 30, 2019. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. Salary increases are based on the defined benefit plan that the member is enrolled in and the member's age. The actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

PFRS	Pub-2010 Safety classification headcount weighted mortality with fully generational mortality improvement projections from the central year using Scale MP-2019

Actuarial assumptions used in the July 1, 2018 valuation were based on the results of the PFRS and PERS experience studies prepared for July 1, 2013 to June 30, 2018 and July 1, 2014 to June 30, 2018, respectively

100% of active members are considered to participate in the plan upon retirement.

Healthcare trend assumptions

For pre-Medicare medical benefits, the trend is initially 5.7% and decreases to a 4.5% long-term trend rate after eight years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rates for fiscal year 2020 are reflected. The assumed post-65 medical trend is 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.5% and decreases to a 4.5% long-term trend rate after eight years.

Discount rate

The discount rate for June 30, 2019 and 2018 was 3.50% and 3.87%, respectively. This represents the municipal bond return rate as chosen by the state. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

Note 12 - Contingent liabilities

Litigation

The Municipality is involved with various litigations matters. The attorneys' letters did not indicate any litigation, claims, or contingent liabilities that are either not covered by the Municipality's insurance carrier or would have a material financial impact on the Municipality.

Grantor agencies

Receipts and/or receivables from grantor agencies could be subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the Township expects such amount, if any, to be immaterial.

Note 13 - Economic dependency

The Township is not economically dependent on any one business or industry located within the Municipality.

Note 14 - Interfunds receivable and payable

As of December 31, 2020 and 2019, there were no interfund balances.

Note 15 - Risk management

The Municipality is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance - The Municipality maintains commercial insurance coverage for property, liability, and surety bonds. Significant losses are covered by commercial insurance for all major programs and there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current or the three prior years.

The Municipality is a member of the Somerset County Joint Insurance Fund (the Fund). The Fund is operated in accordance with regulations of the New Jersey Department of Insurance and the Division of Local Government Services of the Department of Community Affairs. The Fund was established for the purpose of providing low-cost insurance coverage as well as providing stability in coverage.

All members' contributions to the Fund are based on actuarial assumptions determined by the Fund's actuary. The Commissioner of Insurance may order additional assessments to supplement the Fund's claim, loss retention or administrative accounts to assure the payment of the Fund's obligations.

The following coverages are offered by the Fund to its members:

- a) Workers' Compensation and Employers' Liability
- b) General Liability and Auto Liability-Including Law Enforcement
- c) Property Damage
- d) Boiler and Machinery
- e) Motor Vehicle
- f) Public Officials' Liability
- g) School Board Legal Liability
- h) Nurses Medical Malpractice

Financial statements for the Somerset County Joint Insurance Fund can be found at <https://www.scjif.org/financials>.

New Jersey Unemployment Compensation Insurance

The Municipality has elected to fund its NJ Unemployment Compensation Insurance under the Benefit Reimbursement Method. Under this plan, the Municipality is required to reimburse the NJ Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the state. The Municipality is billed quarterly for amounts due to the state. The following is a summary of Municipality contributions, and interest earnings, employee contributions, reimbursements to the state for benefits paid and the ending balance of the Municipality's Unemployment Trust Fund:

Note 16 - Union contracts

As of December 31, 2020, the Municipality's employees are organized into two collective bargaining units which is the Teamsters Local Union 469 affiliated with the International Brotherhood of Teamsters (the Union) and the Hunterdon County PBA Local 188 (the PBA). The Union is the representative for all the members of the public works department excluding all managerial executives, confidential employees, professional employees, police, craftsmen, and supervisors. The term of the union contract was from January 1, 2017 to December 31, 2020. The PBA is the exclusive representative of all full-time patrol officers, corporals, and sergeants and excluding all lieutenants, captains, and the chief of police. The term of the PBA contract was from January 1, 2018 to December 31, 2020 and renewed for January 1, 2020 to December 31, 2022.

Note 17 - Length of service award program (unaudited)

The voters of the Municipality approved the establishment of a Length of Service Award Program (LOSAP) Deferred Compensation Plan. The Program is a defined contribution program covering volunteers in the Fire Department of the Township of Delaware who have performed sufficient services to earn 60 points (as defined by the plan document) per calendar year as approved by the voters of the Municipality by referendum at the general election on November 3, 2003. The establishment of this LOSAP complies with New Jersey Public Law 1997, Chapter 388.

All investments are maintained with the Lincoln Financial Group, an authorized provider approved by the Division of Local Government Services in accordance with N.J.A.C. 5:30-14.37; and are retained in the name of the Municipality. According to the Program, all forfeited account balances are to be returned to the Municipality. For the years ending December 31, 2020 and 2019, no account balances were forfeited. The balance in the account on December 31, 2020 and 2019 amounted to \$610,041 and \$527,449, respectively. Contributions by the Municipality for qualified participants were \$26,450 and \$25,300 for 2020 and 2019, respectively.

Note - 18 Risks and uncertainties

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (The "COVID-19 outbreak") and the risks to the international community as a virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

COMPARISON OF TAX LEVIES AND COLLECTION CURRENTLY

A study of this tabulation could indicate a possible trend in future tax levies. A decrease in percentage of current collection could be an indication of probable increases in future tax levies.

Year	Tax Levy	Cash Collections	Percentage of Collections
2020	\$ 20,810,861	\$ 20,550,494	98.75%
2019	20,288,844	19,972,131	98.44%

2011	18,850,610	18,465,116	97.96%

Increases in future tax levies can also be warranted if revenue sources outside of those directly generated by the Municipality, such as federal and state aid, should decline without corresponding decreases in budgeted expenditures.

**Independent Auditors' Report on Internal Control Over Financial Reporting
and on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with Government Auditing Standards**

Honorable Mayor and Members
of the Township Committee
Township of Delaware
County of Hunterdon, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America, audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the Division) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Regulatory Basis Financial Statements of the Township of Delaware, in the County of Hunterdon, State of New Jersey (the Municipality) as of and for the year ended December 31, 2020, and the related Notes to the Financial Statements which collectively comprise the Municipality's basic financial statements and have issued our report thereon dated September 13, 2021. That report indicated that the Municipality's financial statements were not prepared in accordance with accounting principles generally accepted in the United States of America but were prepared on a regulatory basis of accounting prescribed by the Division.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Municipality's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Municipality's internal control. Accordingly, we do not express an opinion on the effectiveness of the Municipality's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Municipality's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters.

As part of obtaining reasonable assurance about whether the Municipality's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Municipality's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Municipality's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

General Comments
(Unaudited)

Contracts and Agreements Required to be Advertised for N.J.S.A. 40A:11-4

N.J.S.A. 40A:11-4 states, "Every contract or agreement, for the performance of any work or the furnishing or hiring of any materials or supplies, the cost of the contract price whereof is to be paid with or out of public funds not included within the terms of Section 3 of this act, shall be made or awarded only by the governing body of the contracting unit after public advertising for bids and bidding therefore, except as is provided otherwise in this act or specifically by any other law. No work, materials or supplies shall be undertaken, acquired or furnished for a sum exceeding the aggregate, \$17,500, except by contract or agreement."

The governing body of the Municipality has the responsibility of determining whether the expenditures in any category will exceed the statutory limit within the fiscal year. Where question arises as to whether any contract or agreement might result in violation of the statute, the governing body's opinion should be sought before a commitment is made.

The minutes indicate that contracts were awarded for the following items:

Road maintenance & repairs

Sidewalk project

The minutes also indicate that resolutions were adopted authorizing the awarding of contracts or agreements for Professional Services per N.J.S.A. 40A:11-5 as follows:

Auditor
Architect
Public Defender
Historic Consultant
Planning Consultants
Prosecutor

Engineer
Labor Attorney
Risk Consultant
Municipal Attorney
Environmental Consultant

According to the client's records, it appears that there were no individual payments, contracts or agreements in excess of \$17,500 "for the performance of any work or the furnishing or hiring of any materials or supplies," other than those where bids had been previously sought by public advertisement or where a resolution had been previously adopted under the provisions of N.J.S.A.40A:11-6.

Collection of Interest on Delinquent Taxes and Assessments

The statute provides the method for authorizing interest and the maximum rates to be charged for the nonpayment of taxes or assessments on or before the date when they would become delinquent.

The governing body adopted the following resolution authorizing interest to be charged on delinquent taxes:

TOWNSHIP OF DELAWARE
General Comments
(Unaudited)

Collection of Interest on Delinquent Taxes and Assessments (continued)

The governing body adopted a resolution pursuant to the provisions of RS. 54:4-67 fixing the rate of delinquent taxes at 8% per annum on the first \$1,500.00 and a rate of 18% per annum on any amount in excess of \$1,500 becoming delinquent after the due date and if the delinquency is in excess of \$10,000 and remains in arrears beyond December 31st, an additional penalty of 6% shall be charged if payment of any installment is made within ten days after the date upon which the same becomes payable.

Interest was generally collected in accordance with the foregoing resolution.

Delinquent Taxes and Tax Title Liens

A tax sale was held in the year 2020 and was complete.

All tax sale certificates were available for audit.

The following comparison is made of the number of tax title liens receivable on December 31, of the last three years:

<u>Year</u>	<u>Number of Liens</u>
2020	4
2019	6
