Recent Initiatives

DTHAC Mission Statement update: Work on the mission statement is in progress with the TC. West Amwell has a nice resolution we can use as an example. Liza will put a question out on the local Facebook page asking what questions do people have about historic preservation in DT.

Ongoing Topics

- Holcombe House - no report
- Saxtonville Tavern - no report
- Reading School - no report
- County Engineering - Bob will ask County Engineer Luke about the impact on the Covered Bridge by Ida. Will the damage impact the already scheduled repairs or change the funding? Marilyn and Ken have been checking out bridges for damage from the flood. We have documentation on so many bridges that will help in future repairs.

New Business

- The committee has been asked to advise on the sign that was outside on the wall that says Delaware Township. The sign is quite weather beaten and faded but still in good condition. We also looked at a framed painting of the covered bridge, donated to the township. We were asked to consider re-framing in a different frame and color. Chuck will advise on the sign, and took the sign with him to evaluate. Bob and Chuck will consult with framers.
- Informative brochure: the committee will develop an informational booklet or brochure to give to anyone that is interested in historic preservation in DT
