Delaware Township Ordinance 2021-05: An Ordinance to Amend Section §230-12 of the Delaware Township Municipal Code Prohibiting the Operation of Any Class of Cannabis Businesses within its Geographical Boundaries

Copies of the proposed ordinance were distributed to Members for their review; some typographical errors were noted.

Liaison Cline reported that he had attended the Township Committee at which this ordinance was discussed. He noted that there appear to be two choices, opt-in or opt-out. He noted that with the opt-in choice, the Township has no control for five years. He noted that if the Township opts-out, it can be temporary until some guidelines can be developed.

Member Coffey stated that he is concerned that opting-out for Class I, the farmers, creates a handicap for them. He noted that the Ag Advisory Committee is made up of farmers who are not interested in the program. He noted that the State has created confusion with no guidelines or rules. He noted that one argument from the Ag people is that the big companies will buy up the licenses which will not benefit the local farmers.

Member Katz agreed with many of the comments made.

Member Macomber stated that he lived in Colorado when recreational cannabis use was passed. He noted that the growing operations were huge and that it brought in unscrupulous people.

Members Westlake and Bailly agreed that without the infrastructure it would be difficult to opt-in at this time. Chair Westlake noted that the Township Committee is asking for a recommendation from the Planning Board. Member Vocke stated that the TC is not asking for a recommendation at this time, but for the Planning Board to review the proposed ordinance.

Member Coffey opined that the Township should opt-out at this time and delve into the issues when it is more appropriate. Member Bailly agreed with this opinion.

Member Katz suggested that if the farmers are interested that could look into developing an ordinance.

Member Drew stated that if Class I is omitted from the opt-out, too many questions are left unanswered. He suggested that the ordinance be left as presented by the Township Committee.

When asked, no one could recall how the Committee Members voted.

Member Bailly remarked that there is a security issue with growing cannabis. She noted that there is much to be investigated.

Member Bailly made a motion to accept the ordinance as presented by the Township Committee and address the issues as they arise. Member Macomber seconded the motion.

Roll Call Vote

Aye: Vocke, Bailly, Coffey, Katz, Macomber, Drew, Westlake

Nay: None

Absent: Waltman, Gray, Bond, Wright

Members stated that it is appropriate to opt-out at this point due to the unknown parameters. Members also felt this recommendation is appropriate because the Township can opt back in.

Member Drew noted that the one issue the Township Committee opted in on concerns delivery. He noted that it is very difficult to enforce delivery.
